# OUTLANDER

## DESIGNED TO THE LIMIT

All Mitsubishi's are designed to go to the limit in one way or another. The Outlander is no exception - the engineers at Mitsubishi Motors have explored the limits of the family driving experience and come up with the ultimate in comfort, safety and versatility. You'll find that the Outlander meets and exceeds the demands of the busiest schedule, the most active of lives and the most diverse family habits. In the grand scheme of things, anyway.

We know a lot about high-performance vehicles at Mitsubishi Motors, but we don't pretend to know the desired design specs of all our customers in fine detail. So please take your time to think about exactly what you'll be doing with your new Outlander and select the accessories from this brochure that best reflect your taste, style and needs.

### I GOTTA MOVE

Much time and effort has been invested in combining function and form to create the Outlander's robust and yet distinctly sporty good looks. Successfully. We're confident about its I-gotta-move identity. And with the accessories on these pages we're also confident that you will be able to enhance the car's functionality to your own individual needs and requirements and at the same time accentuate just those features you feel will give it the perfect finish to suit your style. The smart and functional rear bumper protection plate, for instance, for intensive loading and unloading. Or a sports grille and silver fog lamp styling elements for a more prominent presence.

## NEVER A BORING MOMENT

The Mitsubishi Outlander offers drivers a fantastic motoring experience. Its handling is superb and its response second to none. Even those not at the wheel will appreciate that. But long journeys to exciting places eventually mean boredom, especially to younger passengers inherently most eager to get there.

The state-of-the-art 40Gb harddisk audio & navigation system, featuring the latest in mapping and sound technology, will certainly ensure that you take the quickest route. But there's more. To keep everyone in the back really quiet, Mitsubishi Motors engineers have developed a rear seat entertainment system the kids will probably want at home. With its large, 9" screen and two pairs of wireless headphones, they can watch films and play games to their hearts' content while you enjoy the drive. And perhaps your favourite concert.

## ERGONOMICALLY EXECUTED

The refined interior finish of the Outlander leaves nothing to be desired for driver and passengers alike. For the driver, a natural, commanding driving position, ergonomically executed controls and maximum visibility; for everybody else, lots of legroom and space for fun and games. Even so, depending on your personal taste and situation, you may wish to consider one or two stylish extras that will enhance your comfort and overall driving experience even further.

### NO COMPROMISE

An often-uttered racing maxim is 'In order to win the race, first you have to finish.' It's no coincidence, then, that each and every component of all Mitsubishi vehicles is designed and built with a no-compromise attitude not only to reliability, but to safety and protection, too. Your safety and protection, that of your passengers and, not least, that of other road users around you. Nevertheless, Mitsubishi Motors has developed a range of additional safety and protection accessories to meet its clients' very diverse needs. Like a separation rack for your four-footed friends, a range of child safety seats and a safety kit including a warning triangle and first aid essentials. And for the overall safety and protection of the Outlander itself, you might consider rear parking assistance and rear bumper protection foil in case of any unfortunate mishaps.

### FREEDOM AND PRACTICALITY

We all have hobbies and lifestyles that lead us to all kinds of different places. The Outlander, with Mitsubishi Motors' intelligent All Wheel Control, which delivers the power of the engine precisely when and where it's needed on almost any surface your passion could take you, is probably the best way to get there. With plenty of space for friends and family, too. And because we're committed to helping you make the most of the Outlander's outstanding versatility, we've fashioned a comprehensive range of accessories for towing and carrying all manner of stuff. Safely and efficiently. From the roof rack for kayaks to a trunk tray for wetsuits, the keys to freedom and practicality are yours for the taking.
